

## Fifi in the garden

Gardens and parks can be fun places to be especially when it's warm outside. Fifi is having fun in her garden today. She can see lots of fun things to do but she can see some dangers too. As you colour this picture in, see if you can spot the dangers Fifi can see.

Some of the things to look out for are:

- garden tools which can be sharp
- ponds which children should never be near alone
- berries, plants or mushrooms which look tasty but can be poisonous
